

“On-demand infrastructure: manage your own Cloud and virtual servers according to your requirements,”

A company's IT structure evolves along with the company's needs. Predicting these developments and making the right decisions for managing this evolution require careful and detailed analysis and planning. On-demand infrastructure is a flexible and reactive solution that allows outsourcing all or part of an IT infrastructure.

SyselVPC (Virtual Private Cloud) offers tailored and «à la carte» solutions for short, medium or long-term infrastructure change requirements.

SIMPLICITY

- ✓ Simple and rapid installation : **you stay focused on your core business.**
- ✓ No local infrastructure or commissioning costs.
- ✓ **Billing by a simple, fixed monthly charge.**

PERFORMANCE

- ✓ **State-of-the-art infrastructures in two physically distinct and fully redundant Data Centres.**
- ✓ Data concerning your virtual machines can be simply restored thanks to the **default five-day retention period.**

SAVINGS

- ✓ **No investment in hardware or software** (no servers to buy, no OS licences to pay).
- ✓ A monthly fee according to your virtual machine configurations (CPU, RAM, Gigabytes of storage, etc.).
- ✓ Better budget management : **no hidden costs, fixed monthly charge.**

FLEXIBILITY

- ✓ **Design and select your own network of virtual machines** to suit your requirements and technical environment.
- ✓ Choose the quantities of CPU, RAM and Gigabytes of storage from the 'à la carte' menu.
- ✓ Install the required applications and scale up the performance when you need it.

MOBILITY

- ✓ **Your virtual machines accessible from anywhere in the world and at any time of day.**
- ✓ Using the published interface, you can access your virtual machines **from any appropriate device configuration** (tablets, mobile phones, PCs, etc.).

SECURITY

- ✓ **Business continuity guaranteed** : no risk concerning breakdown, theft of other loss of a physical server.
- ✓ The guarantee that **your data** and virtual machines are **both stored and managed solely in Switzerland.**

GUARANTEE

- ✓ All our services come with our satisfaction guarantee: **3 months satisfaction or your money reimbursed.**
- ✓ High Availability: our SLAs (Service Level Agreements) guarantee a **99.9% uptime.**

OPTIONS

- ✓ **SyselBackup** : **backup and archiving of your data** using 10 daily snapshots and 24 months of history.
- ✓ **SyselContinuity**: improved security **with business up and running guaranteed** for the « next business day ». No need to wait for purchase, delivery, installation or configuration of new equipment.
- ✓ In the case of a major disaster SyselContinuity guarantees the previously defined RTO (Recovery Time Objective).
